Professional Summary:

Web Developer with 2+ years of experience in developing responsive, scalable, and user-centric websites. Expertise in ReactJS, WordPress, and emerging web technologies. Experienced in client management, requirements gathering, and providing customized solutions. Successfully developed and deployed 20+ websites across diverse industries. Proficient in working with cross-functional teams to provide high-quality outputs. Eager to code, solve problems, and learn continuously to spur innovation and growth.

Technical Skills:

Frontend: ReactJS, JavaScript (ES6+), HTML5, CSS3, TailwindCSS

Backend: WordPress (PHP), API Integration

Tools & Platforms: Git/GitHub, Linux, VS Code, Vite, Webpack

Other: Responsive Design, SEO Basics, Custom WordPress Themes and Plugins

WORK EXPERIENCE:

Website Developer | FirstLaunch media Pvt Ltd. | Bangalore, KA | Nov 2024 - Present

- Developed custom WordPress themes tailored to client requirements, ensuring high-quality, responsive designs.
- Communicated effectively with clients to gather, understand, and implement project needs.
- Strong command of HTML, CSS, PHP, and Bootstrap to build user-friendly and visually appealing websites.

Web Developer | Marconix Sales Solution Pvt Ltd. | Bangalore, KA | Jun 2024 - Nov 2024

- Developed personalized WordPress websites for different brands through outsourcing projects, increasing user experience and brand reputation.
- Worked together with designers and backend teams to develop dynamic, top-end web applications using WordPress and ReactJS.
- Contributed to software applications such as House Party Software and Recruitment Management Systems.
- Collaborated with designers and backend teams to implement seamless and dynamic user interfaces.

Web Developer | The Teachief Academy | Kolkata, WB | Feb 2023 - Feb 2024

- I worked as a Web Developer, handling the entire development-to-deployment process of custom WordPress sites on my own.
- Designed an array of websites, such as academic websites, assignment websites, tour and travel websites, directory websites, and property listing websites.

- Worked directly with clients to identify their needs and provide customized website solutions.
- Applied backend WordPress technologies to gather user information, handle email submissions, and enhance site performance.

PROJECT:

Harry Potter Fandom Website | ReactJS | [Website Link](#) | [Github Repo](#) | March 2024

- Built a dynamic ReactJS application exploring the Harry Potter universe.
- Utilized core React concepts such as components, hooks, props, and state management.
- Integrated third-party APIs to fetch and display real-time data.
- Strengthened expertise in building clean, maintainable, and scalable React applications.

INTERNSHIP:

Full Stack Developer | ColorBracket Technologies | Durgapur, WB | Sept 2022 - Jan 2023

- Developed interactive user interfaces for a Food Delivery Website using Angular.
- Implemented REST APIs to connect frontend applications with backend services.
- Enhanced skills in modern web development practices and team collaboration.
